

2022 Summer @ Brown - Loan Application

If you are taking summer courses at Brown and feel you may need to apply for loan funds to assist with your summer educational expenses, use the worksheet below to help determine the amount of loan funds you may need.

Students must take 2 summer classes to be eligible to borrow federal loans during the Summer. If you are only planning on taking 1 class this summer, but wanted to borrow loans, please contact the Office of Financial as soon as possible, to discuss options. Loan availability may be limited due to loan borrowing in the previous or upcoming academic year. The amount may also be limited due to any funding assistance you have received for extended housing through the Office of Residential Life. If the amount of loan offered to you is less than requested, the Office of Financial Aid will notify you via email of this change.
